

Would you like to lower your electric bill *at no cost*?

The Town of Arlington (through its energy program) and N-Star are working together to help you save money by reducing your electricity usage. This **free** program is available to **eligible homeowners and tenants** in the towns of Arlington, Lexington, Waltham, Watertown and Somerville.

The N-Star Conservation Action Program (N-CAP) has been designed to determine where your electricity is going and what appliances are using the most electricity. During the survey, we will:

- *conduct a brief interview with you about the age and usage of your major appliances;
- *measure the energy usage of up to two refrigerators and/or freezers;
- *install free energy saving products at your home;
- *provide you with a written report with specific recommendations as to how you can save electricity.

Did you know that some older model refrigerators can use over \$30 per month of electricity while a new one will use less than \$5 per month? In certain cases, we can replace your old refrigerator or freezer with a brand new one, **at no charge**.

Some of your neighbors have already taken part in this program and are enjoying their lower electric bills. If you want to save money by saving electricity, please fill out the form on the reverse side, and mail it back. For faster service, please call (781) 316-3430, press 5 and leave a message on the voice mail. You may call 24 hours per day, 7 days per week.

Fill out the form on the reverse side of this letter and return

WE HOPE YOU WILL TAKE ADVANTAGE OF OUR PROGRAM

Complete this form and mail it in the enclosed postage free envelope.
